# NoSQL

## A Brief Guide to the Emerging World of Polyglot Persistence

# Distilled

## Mapping, Round Pegs into Square Holes

# NOSQL

- Impedance Mismatch
- Agreggate vs Tuple
- Key Value
- Value is Blob
- Value is Document
- Big Table Column oriented : key Value

# Indempendance Mismatch

- Agregate to table
- Table to agregate

# Record Structure

- In C
- In C++

# C struct

## Memory lay out

```
struct student {  
    char id_num[5];  
    char name[10];  
    char gender;  
    int age;  
};
```

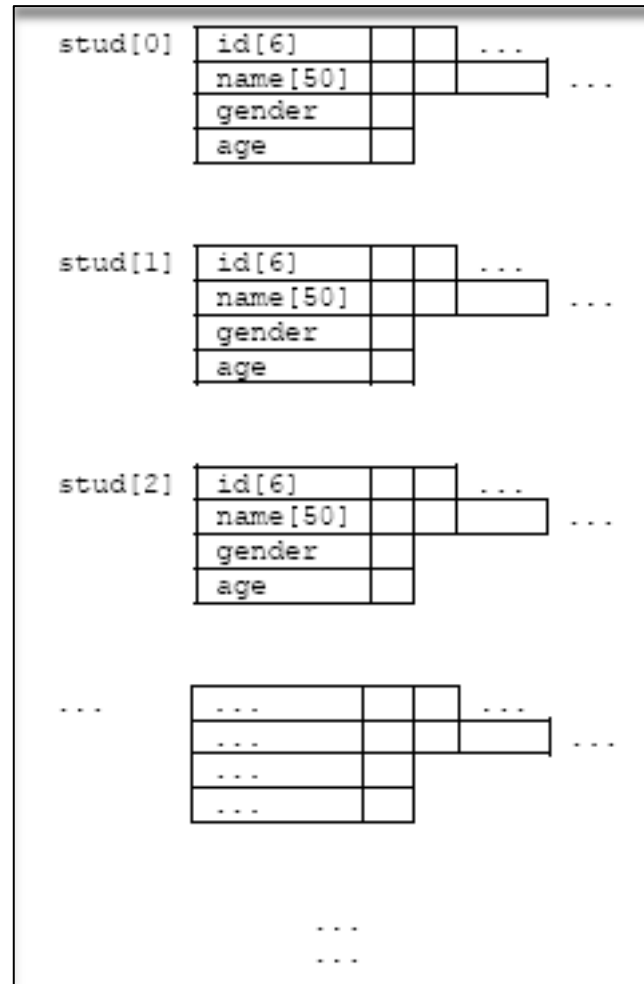

aggregate data types.

<http://www.tenouk.com/Module11.html>

# Array of struct

```
struct student stud[100];
```

# Agregation

- Record of records
- Structure of structures

# Record of records

```
struct date
```

```
{  
    int date;  
    int month;  
    int year;  
};
```

```
struct Employee
```

```
{  
    char ename[20];  
    int ssn;  
    float salary;  
    struct date doj;  
}emp1;
```

**Accessing Month Field : emp1.doj.month**

**Accessing day Field : emp1.doj.day**

**Accessing year Field : emp1.doj.year**

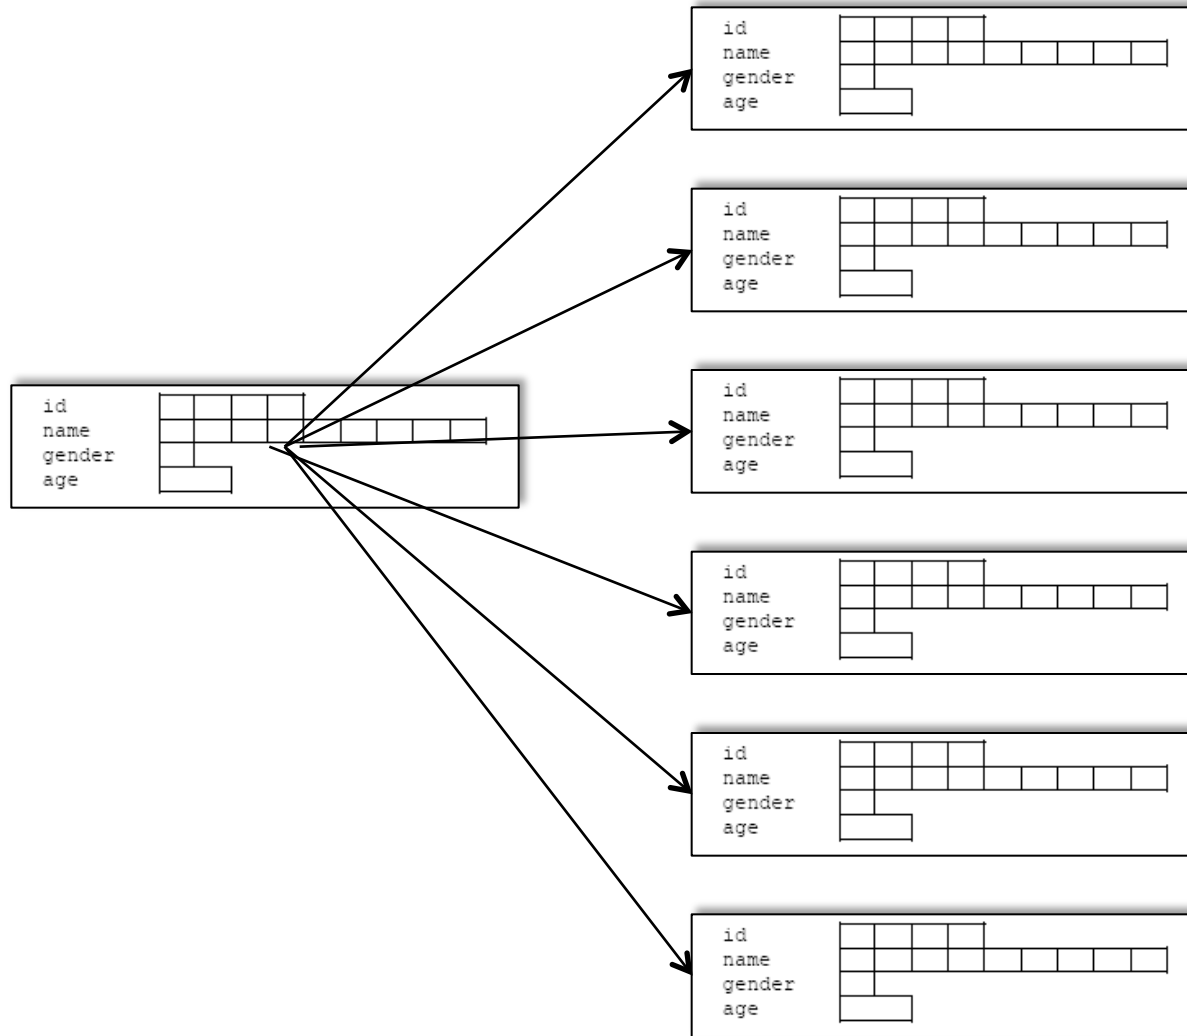

# Structure of structures

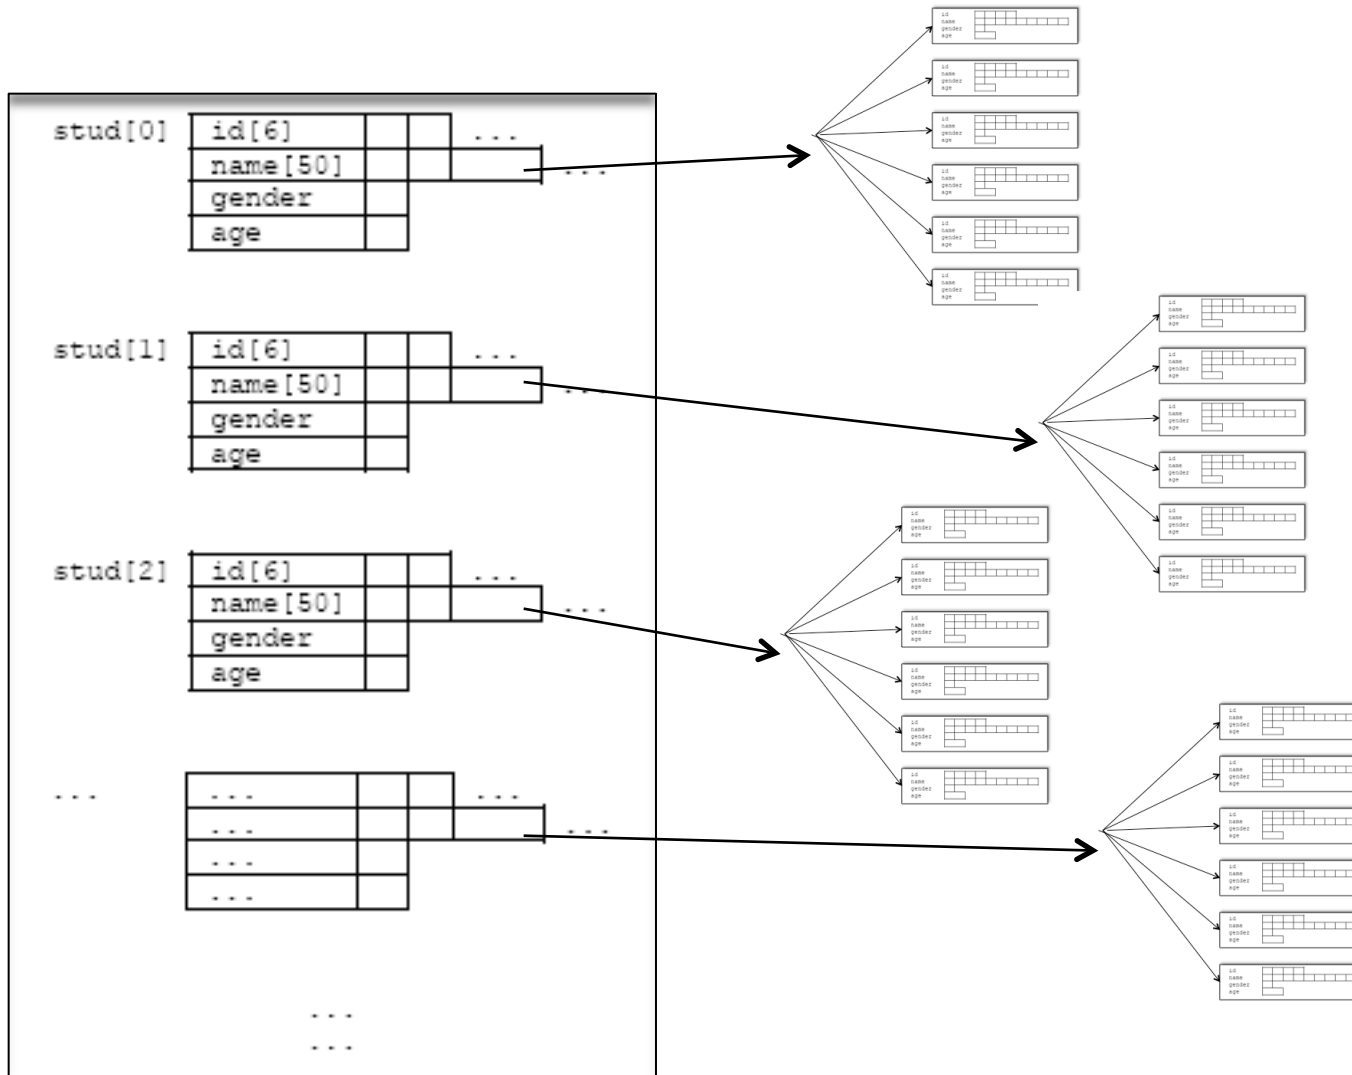

```
struct Employee  
{  
    char ename[20];  
    int ssn;  
    float salary;  
    struct date  
        {  
            int date;  
            int month;  
            int year;  
        }doj;  
    }emp1;
```
